THE NEWSLETTER OF THE ANSON CABIN PROJECT

Happy Christmas everyone from all of us at Anson Cabin

A year at the Cabin

All the children and young people attending the Anson Cabin project had increased access to outdoor activities, including on and off site activities.

Onsite we had outdoor sports and team games, bug hunting, elemental planting sessions, mud kitchen activities, den making, risk taking on our outdoor fixed play equipment. The NCS scheme came in with their performance of Hansel and Gretel, in the garden. This led to children doing their own plays, skills – kart wheels/handstands front and back flips/splits etc. and performances

Off site we had a joint trip with Slade Lane Neighbourhood play scheme to Lyme park, the Anson Cabin Project brought 33 children and young people aged 5-13 years old and a young volunteer. While at Lyme park children and young people climbed trees played in stream ran up and down hills played on the parks fixed adventure equipment and played in woodland making dens.

At Heaton Park the children and young people did similar activities to those at Lyme Park, making the most of the natural surroundings and using the environment for their play purposes.

Ghyll Head saw everyone taking part in activities such as archery, kayaking, orienteering, Ghyll scrambling, zip lines, climbing walls and caving.

Dear Julie,

I have loved volunteering at the Cabin; it has helped me gain confidence and vital work experience, which has assisted my studies at college.

It has also hopefully given me key skills to help me when I travel, and work as an au pair abroad. I am currently working towards gaining a Duke of Edinburgh award whilst volunteering, which will also help me with my university application.

I love working with the children and staff at the Cabin and feel privileged to be a part of growing up at the Cabin, due to attending since I was 5. I'm happy to say that I enjoy doing creative activities with the children, such as, mask making, painting and clay making. I also enjoy getting involved with outdoor activities, such as, den making, games, skipping, and playing in the mud kitchen. It's amazing to watch the children make friends, grow in confidence and interact with one another.

I'm glad that I have volunteered at the cabin because it has been a valuable experience and I will never forget it.

Many Thanks

E. Gorman

Summer Play Scheme

Our summer play scheme was a huge success. We had 97 children and young people on our register over the four week scheme. Twenty of these, aged 13 and over, were taking part in volunteering as part of their Duke of Edinburgh award, taking part

in trips and residential. We also had 77 children aged 5-12 years old taking part in play scheme activities.

Some of the summer play scheme activities were:
Ghyll Head residential
Day trips Blackpool, Lyme park and Heaton Park
Life savers swimming course accredited through swim England, 12 children and young people attended this training.
Four young people attended event training with the project manager

Summer residential to Ghyll Head outdoor education centre in the Lake district

Children and young people have participated in outdoor activities, education and team building exercises including - orienteering, raft building, kayaking, ghyll scrambling and caving. Children and young people have also learnt to be independent through planning activities for the groups, making beds, packing and unpacking their clothing and getting themselves ready, helping to set up and clean up after meals, take responsibility for their belongings and supporting others, some of the children have written about this in their residential diaries

New experiences

As well as delivering on site play sessions we also delivered a variety of offsite activities which included accredited and non-accredited training, all of which worked very well supporting the children and young people that we work with and gave them new experiences.

Life savers courses

With the summer play scheme grant we have supported disadvantaged children, young people and their families. We offer them new opportunities in Life savers

courses - giving children and young people the skills to survive in water if ever a dangerous situation was to arise, for example children playing in unsupervised waters. The lifesavers course was delivered by an assessor teaching children and young people these vital skills.

Children and young people gained an accreditation through Swim England appropriate to their swimming skills, giving children who took part increased confidence in water regardless the level that they achieved.
